PROFESSIONAL SUMMARY

Data and research analyst with over 8 years of experience working with complex datasets to support performance analysis, reporting, and strategic decision making. Experienced in data cleaning, integration, and modelling, with a strong track record of translating analytical findings into clear insights for both technical and non-technical stakeholders. Skilled in developing dashboards, performance frameworks, and data-driven reports to inform policy and organisational strategy. Currently a Teaching Fellow at Trinity College Dublin, with expertise in research methods, data visualisation, and statistical analysis.

WORK EXPERIENCE

TRINITY COLLEGE DUBLIN **Jan 2026 - Ongoing**
Teaching Fellow
- Deliver lectures on Research Methods, covering quantitative and qualitative analysis, statistical modelling, and research design.
- Teach postgraduate modules in data visualisation, social forecasting, and advanced statistics, supporting students in analysing and interpreting complex datasets.
- Communicate complex analytical concepts to diverse student cohorts, strengthening ability to translate technical material into clear, accessible insights.

GRAMEEN FOUNDATION **Feb 2025 - Nov 2025**
Consultant
- Led data analysis and impact evaluation for an IFPRI-funded project, working with complex datasets to assess changes in women's empowerment.
- Designed and implemented analytical frameworks, ensuring data quality, consistency, and robustness.
- Produced reports and research outputs for policy and academic audiences, translating findings into actionable insights.

INJURIES RESOLUTION BOARD **Jun 2024 - Dec 2024**
Student placement- Research and Data Insights
- Developed an analytical framework to monitor accident trends and identify at-risk population groups using advanced analytics.
- Authored a flagship report on road traffic accidents, offering actionable policy recommendations and receiving national media coverage.
- Contributed to wider reporting and data governance initiatives supporting organisational strategy.

GRAMEEN FOUNDATION **Apr 2021 - Jul 2023**
Senior Programme Manager- Client Insights
- Led 8 large-scale research and evaluation programmes, managing complex datasets to assess programme performance across multiple countries.
- Developed performance metrics and analytical frameworks to track outcomes and inform programme strategy.
- Collaborated with global donors (BMGF, Walmart Foundation, GiZ, Citi Foundation) to translate findings into strategic decisions on programme design and funding priorities.
- Built and managed data pipelines, ensuring data quality, consistency, and reproducibility across projects.
- Designed dashboards and data visualisations to support monitoring, reporting, and strategic oversight.
- Led capacity building initiatives, training teams in data analysis, research methods, and ethical data practices.

SAMBODHI RESEARCH **Apr 2017 - Mar 2021**
Research Manager
- Led 6 major impact evaluations, working with large and complex datasets to generate insights on programme performance.
- Developed analytical tools and frameworks for data collection, validation, and analysis.
- Created dashboards and visualisations to communicate findings and support strategic decision making.
- Produced policy reports and research outputs for international stakeholders, translating data into actionable recommendations.
- Managed cross-functional teams, ensuring coordination between research, field, and analytical functions.

EDUCATION

TRINITY COLLEGE DUBLIN **Grade:** First Class (1.1)
Master of Science in Applied Social Data Science
- **Dissertation:** Analysing public sentiment and hate speech on Reddit to understand the impact of immigration in Ireland using text & sentiment analysis and supervised machine learning

XAVIER INSTITUTE OF MANAGEMENT **Grade:** First Class (1.1)
Master of Business Administration (Major in Rural Management)
- Awarded gold medal for academic excellence and received the ”Best Outgoing Senior” award

INSTITUTE OF TECHNICAL EDUCATION & RESEARCH **Grade:** First Class (1.1)
Bachelor of Technology (Electrical Engineering)

KEY ACHIEVEMENTS

- Developed a national-level analytical report at the Injuries Resolution Board influencing policy discussion and public awareness.
- Developed performance measurement and benchmarking frameworks, including ranking 40 Farmer Producer Organisations based on defined indicators to guide strategic investment decisions.
- Secured over €200K annually in funding through data-driven research proposals and stakeholder engagement.
- Delivered analytical insights and reports used by senior stakeholders to guide programme and policy decisions.

ADDITIONAL INFORMATION

- **Data Analysis & Visualisation:** R, Python, STATA, SPSS, Power BI, Excel (Advanced)
- **Data Management:** Data cleaning, integration, validation, large dataset handling
- **Reporting & Dashboards:** Dashboard development, data visualisation, performance reporting
- **Analytical Methods:** Statistical modelling, causal inference, forecasting, text analysis
- **Research & Strategy:** Performance metrics, benchmarking, research indicators, impact evaluation, policy analysis, experimental and quasi-experimental research
- **Tools:** SQL, Git/GitHub, LaTeX, Jupyter, RMarkdown, ATLAS.ti
- **Languages:** English (Fluent), German (Beginner), Hindi & Odia (Native)
- **Volunteering:** Active volunteer in food banks, local charity shops, and mentoring students in foundational data and tech skills.

PUBLISHED PROJECTS & REPORTS

- List of published projects and reports can be accessed here.
